EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submissions filed on 02/23/2006 and 01/23/2006 have been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Middleton and John Musone on 3/22/06.

The application has been amended as follows:

- Claim 51 has been canceled.
- Claim 47, line 2, "the cooling air" has been replaced by —cooling air—to correct an obvious typographical error.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: the prior art of record do not fairly teach the claim limitations in the last two paragraphs of claims 25 and

45 with the rest of the claim limitations. For claim 51, "by reducing structural rigidity of the housing" was not been discussed in the specification and there is no evidence of possession of this feature. Even if this were not new matter, various references would teach using a conical shaped hole in the outer wall structure including Moore (5,326,206) with conical hole 21, 31, Smagner (5,062,249) with combustor wall structure with outer wall 53 and inner wall 11 and conical hole about the hooks 41, Calvez et al (6,675,585) with a conical hole (Fig. 1B) in 78b with bolt 76b. Moreover, as there was no structure claimed in claim 51 that would actually cooperate to do the damping, this would not be given significant patentable weight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
